

Masih Ebrahimy Dehkordy
Anesthesia Department Shohada Tajrish Hospital
Tehran-Iran

Objective

To contribute knowledge and skills in Research Activities

Professional Qualifications & Highlights

- More than 20 years in the healthcare industry with demonstrated ability in clinical qualitative and quantitative research activities
- Able to perform all aspects of clinical monitoring, source documentation; FDA/GHP compliance
- Advanced CRA training program with detailed courses; strong understanding of GCP, ICH ,TCPS2 guidelines and ethics
- Completion of Trio-Council online course (Research Ethics)
- Extensive experience with pre-study imitation process and ongoing monitoring protocol needs related to clinical data, medical documents and patient records
- Experience working as a research coordinator in clinical research programs
- Able to monitor patient before, during, and after anesthesia; counteract adverse reactions and complications, cardiovascular and respiratory assessment and monitoring
- Excellent knowledge of medical terminology; able to write and edit scientific articles
- Detail-oriented and organized, excellent communication and interpersonal skills
- Proficient in MS Words, Power Point and Excel
- Skill and expertise in conducting literature searches and summaries, in order to assist with literature reviews by creating and running search strategies for web-based search tools, and selecting relevant documents.
- Skill and expertise in creating and maintaining reference management files

- Knowledge of quantitative and qualitative research methodology and related software applications (SPSS, Excel).
- Planning, organizing, project management skills and initiative in order to work efficiently under conditions of multiple deadlines and changing priorities.
- Skill and ability to approach and manage assignments in a fast-paced environment.
- Excellent Persian and English language proficiency
- Expert monitoring skills to independently conduct all types of site monitoring visits
- Able to exercise judgment within defined procedures and practices and to determine appropriate action independently.
- Superior problem-solving skills
- Assist in training/mentoring guidance and presentation skills.

Related Training and Certifications

Certified Clinical Research Associate (CCRA) 2014

The University of McMaster, Hamilton, ON

BioTalent Canada 2013

Successfully completed Bio-skills recognition program, assessed to be BioReady for the competency profile as a **Clinical Research Associate (CCRA)**

Medical Council of Canada Evaluating Exam, Toronto, ON 2011

Cardio Pulmonary Resuscitation (CPR) Certification, St John's Ambulance
2012

Observer ship

Clinical Observer at LHSC Anesthesia Department, London, ON Oct 2009

- Followed different anesthesia and pain control methods and new regional and general anesthesia procedures; observed research activities in department of University of Western Ontario

Clinical Observer in Transplantation and Cardiac Anesthesia

The University of Western Ontario, London, Canada

May 2000

- Followed transplantation and cardiac anesthesia methods in department and got familiar with scientific research methods in this active research centre
- Developed strong understanding of fundamentals of clinical trials management
- Informed consent process; data collection & coordination; development of protocols and CRF; study site management, site evaluation and selection visit; site monitoring visit and Study close out

Clinical Research Associate

Jun

2013

Successfully completed Bio-skills recognition program, assessed to be BioReady for the competency profile as a Clinical Research Associate

Postgraduate Education

Certified Clinical Research Associate (CCRA)
2013-2014

The University of McMaster

Anesthesia Residency 1989-1992

University of Medical Science Isfahan- Iran

Doctor of Medicine 1979-1988

University of Medical Science Isfahan – Iran

Academic Honors

1- The Best Lecture Award of First International Congress of Anesthesiology and Perioperative Medicine & 7th Iranian Congress of Anesthesia and Critical Care (Shiraz, Iran Oct 2002)

Comparison of Effects of Midazolam & Fentanyl on Shivering after Epidural Analgesia

2- Silver Medal of Iranian Anesthesia Board Exam (Iran, Isfahan 1992)

Professional Experiences

Clinical Researcher

Oct 1991 –Jan 2013

- Shahid Beheshty Medical Science University, Tehran-IRAN
Conducted routine monitoring for multicenter trials to verify rights and wellbeing of patients protected, ensure accuracy of study data and that study is conducted according to protocol GCP and regulatory requirements
- Conducted site qualifying visits to assess suitability of investigator and site by ensuring investigator has staff, time, patient population and facility to successfully complete study according to GCP
- Reviewed regulatory documents as required during routine monitoring and audits, ensuring investigator site files are accurate, current and identical to Trial Master File
- Assisted Data Management group with various activities including preparation of CRF annotation, and other routine activities
- Monitor different research activities in SBMU Department of Anesthesia Tehran-Iran
- Record observations while administering different anesthetics
- Instruct personnel in methods and procedures for administering anesthetics
- Examine patient, obtained medical history and used diagnostic tests to determine risk during surgical, obstetrical, and other medical procedures
- Special interest for interacting and handling disable and handicap kids (More than 5 years experience as an anesthesiologist for handicap children)

Associate Professor of Anesthesia

Sep 2010-Jan 2014

Shahid Beheshty Medical Science University,
Anesthesia and Intensive Care Department, Tehran Iran

Assistant Professor of Anesthesia and Intensive Care Medicine

Sep 1992-
Sep 2010

Shahid Beheshty Medical University SBMU Anesthesia Department

Assistant Professor of Anesthesia and Intensive Care

Oct 1991-Oct 1992

Kashan Medical University, Isfahan, Iran

Membership:

- International Society of Anesthesiologists
- Iranian Society of Anesthesiologists
- Iranian Medical Council

ADDENDUM: Publications

Detailed copies of all publications available upon request
